Experience

	Web Developer Intern Baytek May 2017 – August 2017 Ottawa, Ontario
	Frontend work on WordPress themes using HTML, CSS/SASS, JavaScript/jQuery. Backend work with WordPress using PHP and shortcode. Created email newsletters templates using HTML and CSS.
	Mobile Quality Assurance Intern TITUS September 2016 – December 2016 Ottawa, Ontario
	Found and logged new bugs on iOS and Android with crash files and screenshots. Verified and updated old bugs, if reproducible, or closed them if no longer relevant. Performed regression testing on iOS, Android and macOS to ensure product quality.

Projects (more projects can be found on my GitHub at <https://github.com/rickydam>)

RickyBooks	An Android and iOS mobile app for University students to buy and list textbooks & sell them by messaging each other to arrange a meetup time and place. The backend API is written with Ruby on Rails using Postgres as the database and bcrypt for the authentication. The API is hosted on Heroku and runs 24/7. The image hosting done using AWS S3. Carleton University students are in dire need of an app like this.
React-Native, Ruby on Rails, Postgres and Heroku.	
September 2017 – Present
